

THE EXPOSURE FOR WHICH MR. EARL WAS INDICTED

WIRELESS TELEGRAM EXPOSES HEARST-OTIS PLOTTING

Note - To F. S. PEARD, Editor:  
General excuse ever given that we make reproduction of Exaction Earl's exposure in Herald is wanting. Suggestion would be good to me, and will follow it unless you write to the contrary. Best photo cuttings passed by General and cited by Mayor this afternoon. Now is the opportune time for report. (Signed) WTBK.

Fighter Command Group HQ decides which Section to activate, and Section Station commanders select squadron to fly each particular operation.

"Screened" fighters controlled and directed to enemy by Radio-Teletype Direction-Finding (RTDF). Minimum time for squadrons to receive Radar alert: four minutes. Enemy aircraft took six to cross Channel.

Fighter Command: 52 squadrons in four Groups. Each Group HQ controls a number of Sections.
